PHJV Assessment Scientific Products

Papers/theses

Arnold, T. W., J. H. Devries, and D. W. Howerter. 2010. Factors that affect renesting in mallards (Anas platyrhynchos). The Auk 127(1): 212-221.

Arnold, T.W., A.M. Pagano, J.H. Devries, R.B. Emery, D.W. Howerter and B.L. Joynt. 2008. Social indices of breeding productivity in Parkland mallards. Journal of Wildlife Management 72(1):224-230.

Arnold, T.W., L.M. Craig-Moore, L.M. Armstrong, D.W. Howerter, J.H. Devries, B.L. Joynt, R.B. Emery, and M.G. Anderson. 2007. Waterfowl Use of Dense Nesting Cover in the Canadian Prairie Parklands. Journal of Wildlife Management *71(8): 2542-2549.*

Arnold, T. W., D. W. Howerter, J. H. Devries, M. G. Anderson, B. L. Joynt, and R. B. Emery. 2002. Continuous laying in mallards. Auk 119:261-266.

Bloom, P.M. 2010. Mallard Duckling Survival and Habitat Selection in the Canadian Prairie Pothole Region. M.Sc. Thesis, Saskatoon, SK: University of Saskatchewan

Brasher, M. G. 2000. Sociability of male mallards and an evaluation of indicated breeding pair criteria to estimate mallard breeding populations. M.S. Thesis, Mississippi State University, Mississippi State, MS.

Brasher, M.G., T.W. Arnold, J.H. Devries and R. Kaminski. 2006*.* Breeding season survival of male and female mallards in prairie-parkland Canada. Journal of Wildlife Management.70:805-811.

Brasher, M. G., R. M. Kaminski, and L. W. Burger, Jr. 2002. Evaluation of indicated breeding pair criteria to estimate mallard breeding populations. Journal of Wildlife Management 66:985-992.

Brook, R.W., M. Pasitschniak-Arts, D.W. Howerter, and F. Messier. 2008. Influence of rodent abundance on nesting success of prairie waterfowl. Canadian Journal of Zoology 86: 497-506.

Connery, D. R., E. A. Cloutis, T. P. Sankowski, J. H. Devries, D. W. Howerter, and F. J. Dover. 1996. Evaluation of airborne multispectral imagery for mapping wetland habitats and vegetation communities: Camp Lake assessment site, Alberta. Proc. of the 18th Symp. of the Canadian Remote Sensing Society, Vancouver, BC. 632pp.

Devries, J.H., R.W. Brook, D.W. Howerter and M.G. Anderson. 2008. Effects of spring body condition and age on reproduction in Mallards (*Anas platyrhynchos*). The Auk 125(3): 618-627.

Devries, J.H., J.J. Citta, M.S. Lindberg, D.W. Howerter and M.G. Anderson. 2003. Breeding-season survial of mallard females in the prairie pothole region of Canada. Journal of Wildlife Management 67:551-563.

Emery, R.B., D.W. Howerter, L.M. Armstrong, M.G. Anderson, J.H. Devries and B.L. Joynt. 2005. Seasonal variation in waterfowl nesting success and its relation to cover management in the Canadian prairies. Journal of Wildlife Management 69(3): 1181-1193.

Fontaine, A. J. 2002. Habitat selection by red-tailed hawks (*Buteo jamaicensis*) in prairie landscapes managed for enhanced waterfowl recruitment. M.Sc. Thesis, McGill University, Montreal, Quebec.

Gendron, M. 1999. Comparative brood ecologies of gadwall and mallard. M.Sc. Thesis, University of Saskatchewan, Saskatoon, Saskatchewan.

Gendron, M. and R.G. Clark. 2002. Survival of gadwall and mallard ducklings in southcentral Saskatchewan. Journal of Wildlife Management 66:170-180.

Giudice, J. H. 2001. Visibility bias in waterfowl brood surveys and population ecology of dabbling ducks in central Washington. Ph.D. dissertation, University of Idaho, Moscow. 134pp.

Hein, E. W., and W. S. Hein. 1996. Effect of flagging on predation of artificial duck nests. Journal of Field Ornithology 67:604-611.

Hoekman, S. T., L. S. Mills, D. W. Howerter, J. H. Devries, and I. J. Ball. 2002. Sensitivity analysis of the life cycle of mid-continent mallards. Journal of Wildlife Management 66:883-900.

Howerter, D. 1991. Assessing the NAWMP program on the prairies. Proceedings of the Annual Conference of the Western Association of Fish and Wildlife Agencies 71:70-74.

Howerter, D. W. 2002. Factors affecting duck nesting in the aspen parklands: a spatial analysis. Ph.D. dissertation, Montana State University, Bozeman, Montana.

Howerter, D. W., B. L. Joynt, R. B. Emery, and T. P. Sankowski. 1997. Effects of nasal discs on nesting by mallards. Journal of Field Ornithology. 68:1-6.

Howerter, D. W., J. J. Rotella, M. G. Anderson, L. M. Armstrong, and J. H. Devries. *in press*. Mallard nest-site selection in an altered environment: predictions and patterns. Israel Journal of Ecology and Evolution.

Joyce, P. E. 2001. The roles of heterogeneity and scale in mallard nest site selection. Master's thesis, University of Manitoba, Winnipeg. 79pp.

Mack, G.G. 2003. Variation in mallard home range size and composition in the prairie parkland region of Canada: correlates and consequences for breeding females. M.Sc. Thesis, University of Saskatchewan, Saskatoon, Saskatchewan.

Mack, G.G. and R.G. Clark. 2006. Home-range characteristics, age, body size, and breeding performance of female mallards (*Anas platyrhynchos*). The Auk 123(2): 467-474.

Mack, G.G., R.G. Clark, and D.W. Howerter. 2003. Size and habitat composition of female mallard home ranges in the prairie-parkland region of Canada. Can. J. Zool. 81:1454-1461.

McPherson, R., T.W. Arnold, L.M. Armstrong, and C.J. Schwarz. 2003. Estimating the nest success rate and the number of nests initiated by radiomarked mallards. Journal of Wildlife Management 67:843-851.

Paquette, G. A., J. H. Devries, R. B. Emery, D. W. Howerter, B. L. Joynt, and T. P. Sankowski. 1997. Effects of transmitters on reproduction and survival of wild mallards. Journal of Wildlife Management 61:953-961.

Raven, Garnet. 2004. Mallard brood movements and wetland selection in the Canadian Prairie Parklands. M.Sc. Thesis, University of Manitoba, Winnipeg, Manitoba.

Raven, G.H., L.M. Armstrong, D.W. Howerter and T.W. Arnold. 2007. Wetland selection by mallard broods in Canada's prairie-parklands. Journal of Wildlife Management 71(8): 2527-2531.

Raven, G.H., T.W. Arnold, D.W. Howerter and L.M. Armstrong. 2007. Mallard brood movements in the Canadian Prairie Parklands. The Prairie Naturalist 39(1): 1-14.

Rotella, J. J., J. H. Devries and D. W. Howerter. 1995. Evaluation of methods for estimating density of breeding female mallards. Journal of Field Ornithology 66:391-399.

Rotella, J. J., D. W. Howerter, T. P. Sankowski, and J. H. Devries. 1993. Differences in nesting effort by wild mallards outfitted with different types of radio transmitters. Journal of Wildlife Management 57:690-695.

Thorn, T.D., R.B. Emery, D.W.Howerter, J.H.Devries and B.L.Joynt. 2005. Use of radio-telemetry to test for investigator effects on nesting mallards, Anas platyrhynchos. Canadian Field-Naturalist 119(4): 541-545.

Thorpe Jr., P.P. 1997. Temporal and spatial variation in habitat selection and movements of female mallards in the parklands of Canada. M.S. Thesis, Montana State University, Bozeman, MT.
