

REVOLVING LAND CONSERVATION PROGRAM (RLCP) – MANITOBA

Through the RLCP, Ducks Unlimited Canada purchases land, restores the wetlands and uplands on the property when it makes sense to do so, and then sells the land back to agricultural producers with a conservation agreement placed on the title as a condition of the sale. Proceeds from the sale provide DUC with funds to purchase additional land to continue this cycle of habitat conservation.

LANDS CURRENTLY FOR SALE

G+S BOLDUC PROJECT – SE15-4-22 WPM
